## Taxation.

In a former article we gave a hasty sketch of the origin and design of the Road Tax, showing that it was a voluntary tax for specific local purposes. We also showed that under the Government measure of last session it assumed the nature of an arbitrary tax for general purposes, and that it might, therefore, to all intents and purposes be regarded as a new and additional burden upon the people. It seems scarcely necessary to point out the various circumstances which concur in rendering extremely oppressive and vexatious any fresh taxation at the present time; nor does it appear needful that we should dwell upon the absence of any necessity for increasing the burdens of a struggling people. These are self-evident propositions. It is the more immediate object of the present article to point out some considerations which render the application of these new taxes to that part of the country lying beyond the Cascades especially oppressive. It will be observed that the Land Act makes a very marked distinction between land east and west of the Cascade Range. On the east, 320 acres constitute an allotment or claim. On the west, 160acres. This difference is the result of certain local conditions, such as waste land and remoteness from the principal markets. For these and other reasons an acre on this side of the Cascades is estimated to be equivalent to two on the other side. But is this difference recognized in the Road Tax Act? Not a bit of it. While the allotment on this side pays $8 a year Road Tax, that on the other side pays $14 40. Then look at the pastoral interests, the chief interests beyond the Cascades at the present time. The Road Tax Act, with wonderful consideration, demands but two cents an acre for land held under pastoral leases. But this liberality is more apparent than real, as we shall presently show. Under the provisions of the Land Act the lessee must depasture not fewer than five head of cattle to every one hundred acres held under lease; but this, although the statutory minimum is, we are led to believe, about the maximum the grazing lands of the interior will on an average sustain Here, then, is about fifty cents a head per annum on cattle, in the name of Road Tax; as much more in rental; and if the run is not fully stocked, probably half as much more in Wild Land Tax. Thus it will be found that every animal will have contributed at least five dollars in the shape of direct taxation to the Government by the time it has attained marketable age,—or just about treble of the import duty. It will be seen, therefore, that, by multiplying taxes and charges, our own stock raisers are left in a poor condition, indeed, to compete with those of a foreign neighbor. The domestic article takes four years to become marketable, and meanwhile pays, say, five dollars in direct taxation. The foreign article pays, say, two dollars (during the last quarter the average duty at this Port was $1 72 her head), for admission, and marches straight to market without contributing a stiver towards the Provincial revenue. Difference against our own stock farmers, three dollars in money and four years in time. And this is the way we encourage home industry! Protect it under the Customs Tariff, with the one hand, and tax it to death with the other! As we stated in a former article, if these fresh taxes were accompanied by anything in the nature of an equivalent or compensating advantage, there would be less ground for complaint. But, unhappily, such is not the case. The expenditure for local and general improvements is even more meagre than formerly All that we have to show for this fresh and vexatious taxation is a more bloated and, it may be added without any injustice, less efficient Executive. But fresh taxation, undesirable under any circumstances, seems to be singularly ill-timed just now. Look at the condition of the country. Look more especially at the position of the farmers beyond the Cascades. For the most part unable to make both ends meet, owing to a succession of dull seasons, without a population to consume their accumulating surplus produce, to come suddenly down upon them with a crushing Road Tax, and a Wild Land Tax, and that without doing anything whatever towards putting them in a better way to meet these fresh demands, is worse than impolitic. It is absolutely cruel. Were this taxation resorted to as a revenue necessity, or for the purpose of carrying out reproductive works calculated to benefit the population taxed, the case would be very different. But no pretension to anything of the kind can be set up in this instance. The very most that can be urged in excuse is that, as the Premier put it, "more Ministers are necessary in order to have a strong Government, and large salaries are essential to keeping up the dignity of Ministers." How do the people like a "strong" Government and "dignified" Ministers? A concluding word about taxing land. The desire to pile up taxes on real estate seems to be assuming the form of an epidemic, and threatens the the best interests of society. The desire is not confined to the Provincial Legislature. Municipalities have caught it; and the guardians of the body-politic would do well to seriously consider if the time has not arrived when a remedy should be applied. Let there be great care lest the people of British Columbia should be made to rue the day they asked for and obtained that form of administration commonly known as Responsible Government. It promised them relief from taxation. It is increasing their burdens. It promised a more economical and efficient administration. It has given them the most extravagant and least efficient administration the country ever had. The fault is certainly not in the system. It is in the men into whose hands the system has fallen. But the remedy lies in the hands of the People. Will they apply it?

## The Ashantee War.

LONDON, July 12.—The steamer Senegal arrived in Mersey to-day from Porto, on the west coast of Africa. She brings lates from Cape Coast Castle to the 23rd June. Thirty thousand Ashantees were encamped within fifteen miles of the town and an attack was looked for daily. The English defensive force was small. Reinforcements were on their way to the town, but they were not expected to reach there before the 5th of this month.

THE SHAH'S APPEARANCE.—A correspondent of the Louisville "Courier-Journal" gives the following unflattering picture of the Shah: The Shah himself is an ugly cuss. He resembles closely the pictures of the more cruel of his forefathers contained in the early editions of the Arabian Nights. I dare say he has caused many a poor devil's head to be chopped off on a notice of five minutes, and it would not suprise me to learn that he has a trick of making himself a widower three or four times a month. A fierce-eyed, tallow-visaged, ugly beast as ever wore a diamond or carried a scimitar; and his Grand Vizer, who is along with him, is only a trifle less brutal and vicious. If you met him either in a dark alley you would tremble for your life. If Capt. Jack has a worse coutenance he is no true Modoc.

THE reconstruction of the Tuileries is to be pushed forward actively, and bets are already being made on the persons most likely to inhabit it. At present the Comte de Paris is the favorite, the Prince Imperial second, Gambetta third, and the Comte de Chambord last.

A husband and wife sailed from Derry for Glasgow, en route for Edinburgh, on June 2nd, the wife having on her knee her thirty-third child. Of the thirty-three there are at present alive twenty-four. It is more than probable that a similar case could not be pointed out.

A petition was read from sundry property holders praying that Rae street should be graded and showing the advantage to the town of completing that street, and offering to meet the Council in a portion of the expense. Petition received, offer accepted, and work to commence.

FINANCIAL.

The following bills were referred to the Finance Committee: T. Gragie, $12; G. Wilkinson, $10; T. Speed, $12; J. Reynolds, $11; R. Turner, $12; J. Hamilton, $11; Victoria Gas Co. $5 75; J. McDowell, $7; T. Hall, $6 31; *Standard*, $45; Robertson & Johnson, $14 75.

WATER, AGAIN.

Com. from the Spring Ridge Water Works Co. asking if the Council, by its late resolution intended, to free the Company of any obligation to supply water for the use of the Fire Department?

Coun. Drummond proposed to deal with the matter summarily. He then offered a resolution, of which the following is a copy:—

*Resolved*, That in answer to the communication of the S.R.W.Co. this Council, in passing the resolution of the 18th inst., did not intend to relieve the S.R.W. Co. from what the Council conceived to be an obligation of the Company to supply the Fire Department's cisterns; that this Council, having countenanced and encouraged those persons who, in emergency caused by the said Company, came forward and by their energy and enterprise furnished the city with that needful element, deem it a duty to support them in their outlay; that should the S. R. W. Co., or any person or persons, lease or buy the plant of the said S.R.W.Co. with the intention of supplying water to the citizens of Victoria or others who may desire the same, this Council will only give permission to such person or persons who will agree to comply with the original agreement as between Coe & Martin and this Council

Coun. Morton said that the further the Water Co. went into the matter the worse they made it for themselves. They first denied that they were under any obligation to supply the Fire Department with water, and now they ask if the Corporation wish to absolve them from the obligation?

The resolution was carried.

STREETS.

Mr. Gastineau, C.E., reported the grading on Blanchard and Fisgard streets complete.

POLICE EXPENSES.

Com. from J. H. Sullivan, Superintendent of Police, enclosing bill of $244, for expenses incurred by Esquimalt policeman and for keep of city prisoners.

The Chairman remarked that the bill demanded the strictest inquiry of the Finance Committee.

Coun. Morton said the accounts should be certified by the City Inspector of Police.

Coun. Drummond—If the San Juan Island murderers' keep is included in that bill it must come out of it.

Coun. Taylor — We should pay the workingmen's bills, and as for the San Juan murderers, they should have been turned over to Mr. Pemberton.

The bill was referred to the Finance Committee.

STREET GRADING.

Coun. Drummond said that ratepayers complained that the upper end of Blanchard street was not graded to the sidewalk, as was the case with other streets.

Coun. Taylor explained that the connection would be established by means of graveled walks.

ASSESSMENT.

Coun. Morton moved that a committee be appointed to draft a bylaw fixing a rate for the assessment of city real estate. Carried, and Couns. Drummond, Morton and Taylor appointed.

CULVERT.

On motion of Coun. Morton it was resolved to advertise for tenders for building a brick culvert on Douglas street, near the Bridge Tavern, and removing the bridge.

OBSTRUCTIONS.

In reply to Coun. Morton the Clerk stated that the obstructions had not been removed from the sidewalk in front of the new Dominion buildings.

Coun. Morton complained severely of the want of courtesy on the part of the Dominion Engineer, and moved that Mr. Pearse be notified that he must immediately cause the obstructions to be removed, and that if he fail he will do so at his peril.

Coun. Taylor, in seconding, hoped that Mr. Pearse did not intend to treat this Council with contempt; if he did he would soon be given to understand that such treatment would not be tolerated.

Resolution carried.

STREET NAMES.

Coun. Morton moved that tenders be invited for painting on tin plates the names of the principal streets, to be placed on the corners. Carried.

Council adjourned.

UPSET.—A boat, in which were a number of boys, was upset in the harbor last evening, and the boys received a thorough wetting before they were rescued.

## Mainland Summary.

[From the "Herald."]

The annual picnic of the Presbyterian Sunday school took place yesterday.

We are informed that Mr. Marcus Smith made a mistake, arising from a confusion of names, in locating the terminus at 'Squimalt. The orders were to locate it at "Sqiemalt"—which is the Indian name for New Westminster. (Not bad.)

Salmon continue plentiful.

Work on the Semialmoo road is being pushed ahead.

We have been permitted to examine some fine samples of wheat and flax, the product of the farm of Mr. Wm. Ladner, of the South Arm. The wheat has been produced at the rate of sixty bushels to the acre, and we are informed will prove over weight. The flax is also very fine.

[From the "Guardian."

LABOR is very scarce just now and farmers are searching in vain for aid to gather their crops. They however are not alone in the difficulty, other branches of industry being equally at loss.

OUR fisherman are making the best of the present extraordinary run of salmon, and failing the appliances for salting or canning the fish entire, are cutting out the bellies of enormous quantities and throwing the remainder of the fish into its natural element,

WE learn that the crop of hay is everywhere abundant; this must be a specially good season for our farmers.

## Rich Diggings at Big Bend.

Mr. E. A. Booth of this city, who is now on French Creek, in the Big Bend country, writes to his daughter, Miss Louisa Booth, under date July 2d, that he has obtained very rich prospects in the hills in that vicinity, and wants his brother, Sam Booth, to come right away up and share his good luck. The diggings, he says, will pay from $10 upwards. The writer prospected the same hills two years ago and got good prospects. Sam starts on Friday for the diggings.

THE RAILWAY.—A strong feeling exists in this community in consequence of the failure of the Dominion Government to carry out its treaty obligations in the matter of the Railway. The driving of a stake in the presence of the Local Ministry, who performed the Grecian Bend and crawled to the spot on their hands and knees, (perhaps they were ashamed of the whole affair) was a dreary burlesque that possessed not even the merit of pretentious surroundings to make it respectable. That public feeling will soon take the form of a public meeting and an indignant remonstrance, none accustomed to watch the drift of popular sentiment in this country can doubt. The Terms called for the commencement of the work on the 20th July. Who, except the members of the Local Ministry, will say that the bond has been kept, when the line of road even is not indicated?

FRENCH BENEVOLENT SOCIETY'S PIC NIC.—We are gratified to learn that it is the intention of the Committee of arrangements for the pic-nic of the French Benevolent Society to extend complimentary tickets to His Honor the Lieutenant-Government; the members of the Executive Council; the members of the Legislative Assembly; the officers of the fleet, and members of the press. The affair will come off on Saturday, and every preparation is being made to render it a great success. There are a few tickets remaining unsold in the hands of the committee for which early application should be made.

COURT MARTIAL.—A court-martial upon the assistant surgeon of H. M. S. Tenedos and the two sailors of the same ship, who lately seized Mr. Dodd's boat at the Dockyard and tried to escape to the American side, will be commenced this morning on board (we believe) the flagship Capt. Curme will preside, and the Court will comprise all the Captains and Commanders of the fleet, except Capt. Ray of the Tenedos, who will act as prosecutor.

HAY CUTTING MACHINES.—Parents can never be too careful in cautioning their children to keep aloof fom these dangerous implements. How many sad accidents have occurred therefrom to children? Another poor little fellow, the son of one of our citizen, yesterday cut off the tops of two finger of his left hand with one of them. This is the second sufferer in our city from the same cause. Let us hope the caution here given may prevent future catastrophes of this character.

ST. JOHN'S CHURCH CONCERT.—This interesting event will come off this evening. The pieces to be sung and played have been carefully rehearsed, and we understand that the attractions fully equal, if they do not excel, those provided at any previous amateur entertainment. The programme comprises fifteen pieces—vocal solos, duets, trios, quartetts, and instrumental selections. Seats may be secured from 11 a.m. to 2½ o'cock p.m. today.

HARBOR DREDGING.—The dredger has cut a channel entirely through Shoal Point 200 feet in width, and vessels drawing 19 feet may now sail into the harbor and through the cut without experiencing the slightest difficulty. In a few days the beacon, having become unnecessary, will be removed. After removing a small spit opposite Lang's, the mud near the wharves will be tackled.

A PLEASANT TIME.—The St. Andrew's Church Sabbath School pic-nic, held at Medana's Grove yesterday, passed off very pleasantly indeed. The weather was most propitious, the attendance was large and nothing whatever occurred to mar the enjoyment of the young folk.

THE steamer Enterprise came down from New Westminster at 3½ o'clock yesterday afternoon with the following passengers: T. Harris, R. Carr, H Elliott, Forbes, McFarland, and Stadleman,

H. M. S. REPULSE.—The officers of the flagship have issued invitations for an entertainment on board, on the evening of the 7th August, at 8 o'clock p.m.

CAUGHT.—D. McGilvray, a well-known hoodlum, has been caught selling whisky to an Indian and sentenced to $50 fine or six months' imprisonment.

FAST DRIVING.—An M. P. P. was fined $1 yesterday for driving across the bridges at a 2:40 rate of speed.

ECCLESIASTICAL.—The Canada Presbyterian Church is about sending a minister to Nanaimo.

H. M. S MYRMIDON.—The repairs of this vessel will be completed on Saturday.

## Several Matters.

EDITOR COLONIST:—The political barometer of the times indicates stormy weather for the Government.

The chilly aspect of trade, and the threatening temper of the people, forbid any more trifling or Utopean speculation. The community is saturated with the hollow promises and the vulgar exhibition of the leader of the Government, and are quite surfeited with the almost criminal incompetency of a Ministry which is probably the most ignoble and selfish that was ever permitted to hold or exercise power for the purpose of legislation. It would seem to be the special delight of these men to reverse the natural order of things and to do that which they are especially forbidden to do. They impudently boast of being very successful,

> In going wrong with a perverted skill,
> Bending the straight rule to their own crooked will;
> And with a clear and shining lamp supplied,
> First put it out then take it for a guide.

The farcical pretense of establishing the Terminus is generally admitted to have been both unusual and disgraceful.

The manner in which the guarantee for the Dry Dock was handled was surely at once unbusinesslike, untruthful and deceptive; and no further flimsy excuses will be tolerated by the people, either to exempt the Local Government from its responsibility or from its deserved fate of instant dismissal. The meetings at Saanich and Esquimalt are significant as indicating, not only the determination of the constituencies to scrutinize the conduct of their members, but as teaching dishonest politicians that the people are their masters and that they intend to hold them to strict accountability. The proposition to sell at public auction at Victoria public lands situated on the Mainland is another monstrous abuse. The intent and object of the Act was to give farmers and residents of limited means an opportunity of buying contiguous farming or grazing land within the district in which they were already settled—not to afford land-grabbers the chance of gobbling up large tracts of land for merely speculative purposes. Just imagine the same amount of land situate in Victoria put up at auction at Cariboo!

What this Province requires most is small landed proprietors. Under the present arrangement, if a resident farmer of New Westminster District wishes to buy any of this land he will have to leave his work and come to Victoria, and, in consequence, his expenses will probably more than equal the price he would have to pay for the land. It remains for the people of the district of New Westminster and of other districts to convene public meetings and at once stop such a glaring outrage.

## Lo's Oration.

A very formidable deputation of Sioux Chiefs waited upon Lieutenant-Governor Morris, of Manitoba in connections with the agrarian interests of that powerful nation. The correspondent of the "Toronto Mail" gives the following account of it:—"It was a strange sight to those unaccustomed to such "pow-wows," to see the dusky skinned subjects of Her Majesty in all the pride and panoply of their gala attire, sitting down to engage in a peaceful interview with the representative of their "Great Mother," whose name they are so fond of mentioning, and to whom they always refer in the most loyal manner. At length, after some time, one stately old chief rose slowly, and approached the Governor, with whom he shook hands. Then he produced for the inspection of His Honour a large pewter medal, on which appeared the name and portrait of King George the Third. After this venerable relic had been passed round and duly admired, the Chief once more shook hand with the Governor, and spoke, of course through an interpreter, as follows:—"The sun rises in the East and it goes towards the West. The white man comes from the east and he goes with the sun. The Buffalo goes the to West and my young men are hungry. So we are come to see our Head Chief (i. e., the Governor), and to hear his words, for we know they are good words."

Then the orator ceased, and a loud "Ugh" was uttered by all his companions, after which, once more shaking hands with His Honour, he resumed his seat with the air of one who felt that he had ably and faithfully discharged a solemn trust reposed in him. "Young Standing Buffalo" and other chiefs followed, speaking to much the same effect, the great object of the visit being to ascertain from the Governor where the reserve which is to be given to them outside the Province will be situated, and to find out whether it is likely to suit the purpose. Having received satisfactory information on this head, the Governor dismissed them with suitable presents of food and clothing, and in a few hours they were slowly riding westward across the prairie, while for a long time we watched them, until, like Hiawatha, they disappeared in "the purple mists of evening."

ALLEGED DIFFICULTY IN BARON REUTER'S PERSIAN CONCESSION.—London July 10th.—There are serious difficulties with regard to Reuter's concession. Reuter is a millior and a-half of dollars out of pocket. He deposited $250,000, as a guarantee on the contract, and expended large sums in bribes to secure the contract. He also loaned the Shah, at five per cent., $1,000,000, which will never be repaid. Now the is a curious intrigue around the Shah to make cancel concession. The Shah was brought out by Reuter to help to float his schemes, but, other London financiers appeared and told the Shah's suite that the concession was worth more than Reuter was paying. Mirza Cassan Ali Kahn, Minister of Public Works, is against him. Reuter would like to sell the concession, but in the face of such difficulties it is doubtful if it has any value.

A. GILMORE has just received a large assortment of Canadian and English Custom-made Clothing, which he will sell at Reduced Prices; therefore the public are invited to call and select for themselves and make their purchases before going elsewhere. * *

## Manners in a Telegraph Office.

In illustration of the importance of good manners, a London paper recalls an incident which occurred at a Scotch telegraph office some years ago. Lord Russell was the Minister in attendance upon her Majesty at Balmoral, and one evening there came a messenger to Aboyne—a little old man buried in a great coat—with a telegram from his lordship to one of his ministerial colleagues in London. The message was handed to the clerk in charge, a preemptory person, who, seeing that it did not bear a signature—it was in the days of the old companies, when a signature was necessary—threw it contemptously back, with the authoritative command, "Put your name to it; it's a pity your master don't know how to send a telegram." The name was added, and the message handed back. "Why, you can't write either!" cried the enraged clerk, after endeavoring to make out the signature. "Here, let me do it. What's your name?" "My name," said the little old messenger, very deliberately, "is John Russell." It was the veritable Lord John himself; and the unhappy clerk was removed from Aboyne forthwith.

THERE is a case of a lady who began to think herself the victim of some delusion, and perhaps threatened by an approaching illness, because each night, about a quarter of an hour after she had gone to bed, she heard a hideous din in the neighborhood of her house, or else (she was uncertain which) in some distant room. The noise was in reality the slightest possible creak (within a few feet of her pillow, however), and produced by the door of a wardrobe which she closed every night before getting into bed. The door, about a quarter of an hour after being closed, recovered its position of rest, slightly beyond which it had been pushed in closing. In another case the crawling of a snail across a window produced sounds which were mistaken for the strains of loud but distant music.—*Cornhill Magazine.*

### A Warning to the Inhabitants of Victoria and Vicinity.

FOR TWO YEARS PAST WE HAVE offered to supply your leading Butchers with meats from one to two cents per pound less than they have paid other parties. For certain reasons they have spurned our offers. These reasons have worked detrimental to your interests as well as ours. We have now made arrangements to supply one of your worthy citizens, Mr. John Parker, with meats for your market, when he cannot purchase sufficient supply on your Island and at prices to compete with other firms. We think you will all be able to discern a marked difference in the prices which he will ask from those which you have had to pay for the past few years.

We wish to warn all persons who desire meat at reasonable rates against entering into any contract with other parties until they have learned the prices which Mr. Parker will ask.

Very respectfully,
BOOTH, FOSS & BORST.

## Medical.

## FRENCH MEDICINES

**Prepared by**

## GRIMAULT & CO.,

**Pharmaceutical Chemists,**

**8, Rue Vivienne,**

**PARIS.**

OF ALL THE MEDICINES OFFERED TO the public for many years past, none have met with such favorable reception, or as been so generally approved by the Medical Profession as those prepared by Messrs. Grimault & Co.

The model Laboratories of this firm, situated at Neuilly-sur-Seine, and managed by Dr. Lecomte, Professor in the Faculty of Medicine, ex-Pharmacist of the Hospitals of Paris, and formerly Assistant to Dr. Claude Bernard, Professor of Physiology at the College of France, offers guarantees to be found in no other establishment.

Among other preparations we may specially mention:—

**Leras' Liquid Phosphate of Iron.**

It contains the constitutive elements of the bones and of the blood, add is the most rational of all chalybeates. It may be prescribed for the most delicate young females whose development has been retarded; for women suffering from stomach complaints, anæmia; for pale and sickly children deprived of appetite; and as its principal action is to restore to impoverished blood the iron in which it is deficient, and to the bones the phosphate that forms their base, it is recommended for debilitated persons whether their debility proceeds from disease or from any other cause. Its use is always attended with surprising results.

**GRIMAULT & CO.'s**
**Syrup of Hypophosphite of Lime.**

An excellent remedy for all affections of the chest; it relieves coughs, effectually prevents nocturnal perspiration and restors the patient's strength. This syrup is the only one which, ever since 1857, has invariably been attended with satisfactory results—a fact due to the purity of the hypophosphite employed. Be sure to observe that it bears the signature of Grimault & Co.

**GRIMAULT & CO.'s**
**Iodized Syrup of Horse Radish.**

Considered the best substitute for Cod-liver Oil. It has been ascertained by experiments made in the principal Hospitals of Paris that this syrup has always produced results superior to those obtained from the above-mentioned Oil, which patients find so disagreeable to take.

Not a single instance can be adduced in which pale lymphatic children, subject to swelling of the glands, to eruption of the skin, of the head or the face, or other inconveniences of a weak constitution, who have taken this syrup without deriving signal benefit from its use.

**GRIMAULT & CO.'s**
**Pepsine Digestive Powders, Pills, Elixir and Wine.**

Pepsine is one of the most recent scientific discoveries in therapeutics. Acting chiefly on the organs of digestion, it possesses the property of effecting digestion by its innate virtues. It removes all the inconvencies of difficult digestion and even prevents the nausea to which pregnant women are liable.

The researches on pepsine made at the College of France by Dr. Lecomte, in conjunction with Professor Claude Bernard, must secure the preference for our preparation of pepsine.

**Lagasse's Syrup and Paste of Sea Pine Sap.**

Employed with success in the treatment of catarrh, bronchitis, hæmoptysis, and the different stages of phthisis.

It cures spitting of blood, the most obstinate coughs, alteration of the voice, oppression and pains of the chest, the nocturnal paroxysms of asthmatics, and modifies the more serious lesions of the respiratory organs.

**GRIMAULT & Co.'s**
**Matico Injection and Capsules.**

Composed of the essence extracted from the plant so called, they have been constantly employed with the most brilliant success in a certain class of contagious diseases.

They combine extraordinary efficacy with the advantage of never causing nausea, irritations, or pains in the stomach, as do the gelatinous capsules which contain Balsam of Copahu in a liquid state; or the strictures that result from the use of injections having a metallic basis.

**GRIMAULT & Co.'s**
**Pectora Lozenges of Lactucarium and Cherry Laurel.**

This delicious comfit, containing the two most soothing substances of the whole Materia Medica is employed with success against cough, influenza, bronchitis, hooping coughs, &c.

**Asthma. Asthma.**
**GRIMAULT & Co.'s**
**Indian Cigarettes of Cannabis Indica.**

All the means hitherto employed to relieve Asthma have been only palliative in varied forms, based on belladona, stramonium, nicotiana, or opium. Recent experiments made in the Paris Hospitals have proved that our Cigarettes made of the extract of Indian Hemp possess remarkable virtue against this complaint, as well as against nervous coughs, chronic laryngitis, hoarseness, loss of voice, acial neuralgia, and insomnia.

**Grimault & Co.'s Guarana.**

A single powder of this vegetable production is sufficient to cure instantly the most violent sick headache. It is the most valuable remedy against diarrhœa, dysentery, and all disorders proceeding from derangement of the stomach or bowels. This powder is indispensable for all families, and far more efficacious than opium or sub-nitate of bismuth.

**GRIMAULT & Co.'s**
**Vermifuge Santonine Dragees.**

Under the form of comfit, equally pleasing to the taste and to the eye, hey supply mothers with an easy and perfectly safe means of relieving their young children from intestinal worms, which are often the cause of convulsions.

Paleness of the skin and frequent irritation of the nose are nearly always the certain signs of the presence of worms. Preference ought always to be given in such cases to these drages, the composition of which is well known and always he same, instead of those which are called vegetable, but often contain calomel or other forms of mercury

**GRIMAULT & Co.'s**

**Newfoundland Cod Liver Oil, and Cod Liver Oil, with Iodide of Iron.**

The Cod-liver Oil which we offer to the profession and the public is especially extracted for our house in Newfoundland, and we can therefore guarantee its altogether exceptonal purity.

Our Newfoundland Oil with Iodide of Iron, which contains in every tablespoonful two grains of pure iodide of Iron, is a valuable resource in lymphatic and scrofulous affections, as also in consumption.
